brantwills@gmail.com

 Rochester, NY

 www.brantwills.com

I enjoy creating, managing, and developing software and web applications. My work experience has exposed me to many different technologies largely focused within the .NET framework. I feel most comfortable leading small to midsized team environments where group thinking and friendly competition is encouraged.

## ↔ Experience

### **Ortho Clinical Diagnostics: 2012 – Present** **Rochester, NY – Infoscitex a DCS company**

Contracting position working with Ortho Clinical Diagnostics (OCD) as a software engineer in support of the e-Connectivity interactive management system. This includes developing the software architecture to securely transfer, extract, load, and present patient information from OCD blood analyzers onto a variety of visual media.

**Technologies:** C#, Web Forms, WCF, MSSQL, SSIS, SSMS, AngularJS, jQuery, D3

### **Air Force C2IC Vocabulary OneSource: 2008 – 2012** **Hampton, VA – DRC / Goldbelt Hawk LCC**

Air Force contracting position tasked to develop “OneSource” a data analysis and exploration tool used by the Air Force C2IC Vocabulary Team and participating communities of interest. This included an ongoing two year process to redesign the workflow, graphical interface, and develop a fast and secure method for retrieving data using Oracle and .NET web services.

**Technologies:** C#, Web Forms, MVC, jQuery, Oracle, XML, XSD, XSLT, PL/SQL

## Education

### **Computer Science, Master of Science: 2006 – 2008**

Concentration in System and Software Design  
Jacksonville State University, Jacksonville, Alabama

### **Computer Science, Bachelor of Science: 2001 – 2005**

Concentration in Software Engineering  
Jacksonville State University, Jacksonville, Alabama

### **Backend Technologies**

Microsoft .NET / PHP  
IIS / WCF / ASMX  
MVC / Web Forms  
CodeIgniter

### **Frontend Technologies**

Javascript / jQuery  
AngularJS / npm  
JSON / XML / AJAX  
CSS / SASS / Bootstrap

### **Databases**

Oracle  
Microsoft SQL Server  
SSMS / SQL Developer

### **Source Control**

Git / GitLab  
Visual Source Safe

### **Environments**

Visual Studio / Code  
Vim / Sublime Text  
Eclipse
